

Spaghetti Feed Benefit

for Roger Schwers & Family

Roger was diagnosed with rectal cancer on Father's Day, 2016. He underwent 6 months of chemo & radiation. After a follow up MRI, Roger was then diagnosed with blood cancer.

He will now endure chemo for the rest of his life as blood cancer can spread anywhere in the body at anytime. Roger has not been able to work since last May.

Roger & his wife Kristen have 3 children, Steven (20), Alex (16), & Lauren (11).

Let's ALL Come Together to Support Roger & Kristen!
